

Your honor,

I don't wish to waste your time so I will get straight to the point. I want to apologize for escaping from your courtroom. I hope you don't take it personal because you are one judge that I have great respect for. Also I respect your center here in Broward County. I'm aware of your success as both a lawyer & a judge. Though my actions are not excusable, at the time I did what I felt was in my best interest. As you are aware I have been incarcerated close to 2 full years. I felt I was at a dead end with no where to turn to. I tried to appeal to everyone to prove to them I was innocent but my voice went unheard. Safe to say now I have received enough attention and people believe in my innocence. I wish I could go in specifics with you on how I am innocent but due to the nature of the ongoing case I can't. I do know that when trial comes I will be able to show as well as prove to you. I just ask for you to please judge me fairly. I don't want you to be bias towards me because of the escape. I'm well aware of the way the judicial system & some of the things that go on within the court system. I just don't want to be treated unfairly after I seen the 60 year sentence Judge Destiny handed down to a inmate my mind is troubled. I don't feel that you are that cruel I've respected your career. I've seen the things that you have done to help inmates mainly Blacks. I wrote you because I didn't want you to take my actions the wrong way. When I escaped my whole reason was to gather enough info on my case to prove my innocence. As you can see I didn't commit any crimes, hurt anyone, or go far. I just wanted time to prove my innocence. There is a phone I had that can prove what I'm saying. If it was ever found inside the hotel it will show. Please take in account all the things I said & more people will be writing letters on my behalf. Thanks for your time.
